Ref Office Action Summery mailed on 5/2/07

Hi Mr. Nguyen:

I am trying to decipher your objections mailed to me after my last "corrections, amendments" and need your help to point out exactly what needs to be done instead of referring to 37 CFR this and that with all of it's amendments, it is becoming very confusing. I faxed you a clear and amended version for prior approval, but you did not enter the final mailed version for examination. If the 3/19/04 version is usable I will not make any additional changes to it unless you can specify what I need to do in plain English.

The Status is not final, and as you mentioned during our last conversation my claim is not being rejected for prior art similarity reason, therefore I still have a chance for getting a patent for my invention..

In the claim section 1-3 are pending, 2-3 withdrawn than claim 1 is rejected.??

It is rather confusing it said it is rejected, than you say it is not, so what is it?

Election /Restriction

I was advised, that since I had more invention claims on my application, I needed to restrict it one to the bubbler section of the Toilet Odor Blocking section, anything else should be a dependent claim. In my view it was a basic common sense decision, and not as an error what needed to be point out. Just trying to follow PTO-s requirements.

Information Disclosure Statement

If I understand it well, I will have to redo the Information Disclosure naming only the examiner cited prior arts.

Drawing objections ; Minor changes in notations, clear and understandable.

Claim Objections/Rejection; I think I understand the required corrections

Please call me or advise by fax or E mail so I can proceed to make all corrections this week.

Thank you, Zoltan Egeresi
